

ID	2509
Curricular Unit	Sport Sociology
Regent	Ana Maria Silva Santos

This program offers studies of sport from a sociological perspective.

Learning Outcomes

The main goal is the acquisition of critical analysis skills in empirical research. In this research the main issues are: the globalization of sport, sport and the State, sport and national identity, the professionalization of sport, racial and ethnic relations in sport, gender relations in sport, sport and the media, sport and drug abuse, ethics in sport and violence in sport.

Sport Sociology program also prepares students in analysis and research. The methods of collecting and analyzing data instruct students in the context of understanding community social life: ethnographic accounts, covers surveys and life histories.

Syllabus	<p>a) Sport and Identity</p> <p>Themes: Sport: Between Local and Global, Sport and National Identity</p> <p>b) The body, athletic competition and social power</p> <p>The body, athletic competition and social power</p> <p>Themes: Sports heroism; Studies on Gender, Technology and sports Record, the Doping</p> <p>c) Sport as a space for negotiation, empowerment and social contestation</p> <p>d) Sport, media and technology</p>

The unit was 14 theoretical sessions and 14 theoretical-practical - one per week each, and the program is divided in twelve thematic sessions and has a start session where is present all goals and methodology of classes and an end session where students evaluate the process and present proposals of improvement. Each week present a thematic.

Continuous evaluation: requires minimal presence's corresponding to 2/3 of all classes

The range of assessment methods, in the continuous evaluation, includes:

Evaluation

Individual Mark = Participation in oral discussion and group work [P]+ the article survey [R].

Individual Mark = $(2P + 3R) / 5$. The minimum mark for each test will be 9.5 values

Group Mark = Oral presentation of an article [A] + Critical analysis of each text discussed in class [Q] + study project [P] + Poster of Final Research [PR].

Group Mark = $(1.5A+1Q +4P + 3.5FR) / 10$. The minimum mark for each test will be 9.5 values

Final Mark = Individual Mark + 2 x (Group Mark) / 3.
