

ID	2618
Curricular Unit	Occupational Hygiene
Regent	Rui Miguel Bettencourt Melo
Learning Outcomes	<ul> <li>Identify and describe the fields of Occupational Hygiene;</li> <li>Characterize the main physical, chemical and biological gifts workplaces agents;</li> <li>Presenting instruments for monitoring environmental agents;</li> <li>Assess the risk of exposure to physical, chemical and biological agents;</li> <li>Define methods of controlling exposure to physical, chemical and biological agents.</li> </ul>
Syllabus	1 Domains and principles of Occupational Hygiene 2 Chemicals 2.1 Basics of toxicology 2.2 Exposure Limit Values 2.3 Control measures 3 Physical agents 3.1 Vibrations 3.2 Noise 3.3 Ionizing radiation and non-ionizing 3.4 Lighting 3.5 Thermal Environment 4 Biological Agents 5 Legislation and regulations
Evaluation	Students must choose between 1) test (60%) and individual / group work (40%); and 2) final exam (100%).
