Curricular Unit	Cost Accounting
Regent	Inês Maria Galvão Teles Ferreira da Fonseca Pinto
Learning Outcomes	This course is designed to introduce students to the principles and concepts of financial accounting. The main objectives of the course are to: * Emphasize the importance of accounting in the context of the information system of a company. * Provide an overview of the accounting process and present what are the mandatory financial statements and how they are prepared. * Provide a set of basic tools in order to allow students to develop the study of accounting. The specific objectives are to: * Present the basic principles of accounting, the accounting model and the accounting cycle underlying the preparation of financial statements. * Discuss the various financial statements and the links between them (Balance Sheet, Income Statement and Cash Flow Statement). * Explain accounting cycle: current operations, investment and financial cycle. * Preparation of financial statements.
Syllabus	 Introduction. International Standards Convergence. Conceptual Framework. Financial Accounting Statements. Current Operations: 5.1 Financial Assets; 5.2 Inventories; 5.3 Financial Liabilities. Investment Cycle: 6.1 Long-lived Assets; 6.2 Intangible Assets; 6.3 Financial Assets; 6.4 Investment Properties. Financial Cycle: 7.1 Equity; 7.2 Liabilities. Performance: 8.1 Revenues and Expenses; 8.2 Accrual Accounting and Results.

Evaluation	The unit will be taught using a combination of theoretical and practical lectures. Students will be encouraged to actively participate in the realization of class exercises and problems. Continuous assessment in class will have a weight of 30% in the final student's classification, including 3 midterm exams. The end-semester exam will account for 70% of the course grade and required a minimum score of 8 points out of 20. If the student's classification is higher than 17 points, an oral exam is required.
