| ID | 3422 |
| Curricular Unit | Evaluation of the neuromuscular system |
| Regent | Pedro Jorge Moreira de Parrot Morato |
| Learning Outcomes | Advanced study of aspects of neuromuscular function relevant to understanding the control, organization and coordination in human movement. |
| Syllabus | <ol style="list-style-type: none"> 1. Organization Model of General Motor Behavior 2 Cases of Neuromuscular Coordination: Intramuscular and intermuscular 3. Sensory pathways involved in Motor Control 4. Cord Organization of the Movement 5. Organization and Control of Motion in the Upper Floors CNS 6. Adjusting the Balance 7. Approach Functional Body Muscle 8 Electromyography: rationale, methods and applications |
| Evaluation | A final written test. |
